Novell Netware Programmierung

Charles G. Rose

Programmers Guide to Netware,
McGraw-Hill, 1990, ISBN 0-07-607029-8
(-The- standard reference for the Assembler NetWare 2.x API.
Best book around for independent programmers.)

Charles G. Rose

Die Novell Netware-Programmierung
auf Disk Beispiele V2.x, v3.x und v4.x in C und pascal.
618 S. (Edition Novell 256), DM 128,-
Rossipaul-Verlag, 1994, ISBN 3-87686-256-6
(deutsche Übersetzung, mit zusätzlichen 3.x/4.x Informationen)

Hill/Zessin

Netzwerkprogrammierung in C - Novell NetWare 3.x/4.x
IWT-Verlag, ISBN 3-8322-491-X
mit Kapitel über das Netware Filesystem

Ralf Brown & Jim Kyle

Network Interrupts,
Addison-Wesley, 1994, ISBN 0-201-57???-?
(Contains the same info as Ralph Browns" INTER38?.ZIP file)

Laura Chappel

Novell"s Guide to NetWare LAN Analysis,
Sybex/Novell Press, 1993, ISBN 0-7821-1143-2
(Includes a good look at the "proprietary" NCP-protocoll)

Ralph Davis

Netware Programmer"s Guide,
"Building applications with Netware version 2.15"
Addison-Wesley, 1990, ISBN 0-201-57014-9
(Reference for the Novell C Client Kit for NetWare 2.x)

Ralph Davis

NetWare 386 Programmer"s Guide,
Addison-Wesley, 1991, ISBN 0-201-57709-7
(Reference for the Novell C Client Kit for NetWare 3.x)

Ralph Davis

Windows Network Programming: How to Survive in a World of Windows,
DOS, and Networks, Addison Wesley, 1993.
(An in-depth look at WfW, NetWare, LAN Manager. Includes a chapter
about DPMI API call translation)

Tim Farley

Undocumented NetWare: A Programmer"s Guide to Reserved Networking
APIs and Protocols, Addison-Wesley, 1994.
(covers the NCP protocol, the NW Lite API,
NetX modifications of INT 21h, the F2 interface, server APIs etc.)

IBM

IBM Local Area Network Technical Reference.
IBM, partNbr. 25F7688, FormNbr. SC30-3383.
(LanBIOS and netBEUI, -NO Netware/IPX-)

John T. McCann

Netware Programmer"s Guide,
Seite 1 / 2

Literatur

M&T Publishing, 1990, ISBN 1-55851-154-7

(Shows some possibilities of the Assembler API for NetWare.)

Barry Nance

Network programming in C,

Que, 1990, ISBN 0-88022-569-6

(Covers Netware, NetBIOS and IPX/SPX, sources included)

Matthew Naugle

Network Protocol Handbook,

McGraw Hill, 1993, ISBN 0-07-046461-8.

(An excellent general reference to all major network protocols, including XNS, IPX/SPX, AppleTalk, TCP/IP and DECnet.)

Novell

Netware System Interface Technical Overview,

Addison-Wesley, 1990, ISBN 0-201-57027-0

(Global description of the Novell C Client Kit for NetWare 2.x)

Andrew Schulman et.al

Undocumented Dos, 2nd ed., Andrew Schulman, ed.

Addison Wesley, 1993, ISBN 0-201-63287-X

(General programmers" reference for undocumented DOS; includes a chapter about the network redirector INT 21/11 (VLM type shell))

W. David Schwaderer

C programmers guide to NetBIOS, IPX, and SPX,

SAMS publishing, 1992, ISBN 0-672-30050-8

(Good programmers" reference for NetBios, 1 chapter about IPX)

????

Novell"s Guide to Netware 4.0 Nlm Programming

Sybex, ISBN 0-7821-1205-6

englisch, mit Beispielprogrammen

Eindeutige ID: #25002

Verfasser: Rene Spronk
