## Yesterday

Melodie von The Beatles: Yesterday

Yesterday

All those backups seemed a waste of pay  
Now my server has gone away

Suddenly,  
There"s not half the files there used to be  
And the owners hanging over me  
The system crashed so quickly

I pushed something wrong  
What it was I could not say

Now all my data"s gone  
And I long for Yesterday

Yesterday,  
The tape rotation seemed so far away  
I knew my server was here to stay  
Now I believe in yesterday...
